# Dave Behrens Week

**June 13-23, 2008**

Learn everything you ever wanted to know about those amazing critters that comprise Lembbeh Strait and Bunaken National Park. Enjoy a week with internationally recognized marine biologist, Dave Behrens. Dave is author/co-author of eight books on reef dwelling creatures and over 80 scientific papers on marine ecological topics. He will introduce you to the many unbelievable relationships between the organisms that make up the amazing reefs of the Indo-Pacific. Learn about:

During your week you will assist Dave in finding these sometimes illusive creatures. After each dive group sessions will share our findings.
